## EDUCATION

University of Texas at  
San Antonio  
2023

Information Systems  
Bachelor of Business  
Administration

## PROFESSIONAL EXPERIENCE

DPC Event Services  
2021-2023

Event Coordinator  
Lead Crew of 3 Orchestrating  
large scale events. Set up server  
room ran cat 6 cabling from  
server rack through ceiling to  
wall ethernet ports.

## RELEVANT PROJECTS

### Report Generator using Pandas and NumPy

It uses a low-level of dynamic coding. This means that this script can generate a report containing selected data from any "flat" file, provided that (A) The file can be read using Panda's read\_csv function (B) The file contains data that can be used to create a "clean" DataFrame object.  
<https://github.com/marcjacobreyes/codingProjects/blob/main/reportGenerator.py>

### Time Card Software Solution

During my time at DPC I replaced the excel time sheet they were using by creating a personalized software solution to track employee hours in decimal time and calculate their pay based on hours and wage. Designed, tested, developed, and deployed using JS, HTML5, CSS, and Netlify providing a user-friendly solution for time-tracking.

## RELEVANT COURSEWORK
